For Foreign Students NKNU Heping Campus Map

A comprehensive university offers quality teacher preparation programs along with excellent undergraduate and graduate programs to meet all your needs

In order to strengthen both teacher education and non-teacher education, NKNU aims to develop interdisciplinary research and teaching among departments, graduate institutions, and colleges. Furthermore, in order to fulfill the vision of international interaction and cooperation, NKNU is eager to utilize network resources of industry, academy, research, and teaching to provide build up the five colleges with multiple, modern trends.

NKNU has successfully transformed into a double-cored, exquisite university with both teacher education and non-teacher education.

International Exchange Programs

NKNU has signed a Memorandum on International Dual Degrees with several partner universities to acknowledge academic credits from one another. Upon fulfilling the graduation requirements of NKNU and a partner university regarding a period of study and credit, students participating in this program will be able to obtain the academic degrees from both universities. This program benefits students with cultural exchanges in language, academics, and culture alongside with the international competitiveness brought out by the local and global degrees.
