Internet Access Fee	NT\$ 300/ year
Total Estimated Expenses	NT\$ 7,600~9,600 /month

Scholarship

NIU supports with attractive scholarship to International Students who have excellent record. To award this students must have registered as International Students and not been awarded with fellowship from Taiwan (R.O.C) government. For more details on this please visit NIU International Students Admissions website <http://isa.niu.edu.tw>.

Beauty of Yilan

Yilan looks out to the sea on Taiwan's Northeast Coast, with mountains on the three other sides forming a unique geography that has nurtured an equally distinctive cultural landscape and human warmth. The county is home to Asia's second longest highway tunnel (12.9km), the Hsuehshan Tunnel, which has reduced the driving time between Yilan and Taipei to less than 50 minutes. From natural environments and cold and hot springs to a wealth of ocean recreation resources and verdant country scenes, Yilan offers the perfect setting to slow down and enjoy nature at its best.

About National Ilan University

National Ilan University (NIU) was founded as Taiwan Provincial Ilan School of Agriculture & Forestry in 1926, one of the oldest institutions of higher education in Taiwan. Since then, NIU has maintained its distinguished status in academic as well as in research fields and promoted in 2003. Currently NIU is home to the College of Bioresources, College of Engineering, College of Electrical Engineering & Computer Science and the College of Humanities and Management.

National Ilan University (NIU) main campus is located in the heart of Yilan where is less than one hour drive from Taipei, the capital city of Taiwan. NIU has its own forest land in Jiaoxi for forestation and ecological research. NIU has its campus at Wujie that focus on professional animal research and a campus near Yilan Scientific Park.

NIU President Po-Ching Wu, Ph.D

Prof. Po-Ching Wu (PhD) was elected as the 5th President by the NIU President Election Committee in 2016. Received his PhD degree in Food Engineering at University of Massachusetts USA, President Dr. Po-Ching Wu is also the Professor from Department of Biomechatronic Engineering at NIU.

President Dr. Po-Ching Wu believes that a University not only plays the role as education and academia research, it should also serve its social responsibility. In his tenure of office, President Dr. Po-Ching Wu will focus on five governing dimensions: (1) Actively seek resources for NIU development (2) Execute excellent education to lift students' professional skills (3) Enhance educational facilities to support high quality teaching (4) Create connection and contribution to local community, and (5) Improve students' international mobility.
